Aarav Mehta

Final-year B.Tech student, Computer Engineering
aarav.mehta.dev@example.com | +91 98765 43210 | Pune, Maharashtra, India
github.com/aaravmehta-dev | linkedin.com/in/aarav-mehta-21

Summary

Computer engineering student who builds full-stack and computer-vision projects. Looking for a software engineering role starting July 2025.

Education

Vishwakarma Institute of Technology, Pune — Aug 2021 – Jun 2025 (Expected)
B.Tech, Computer Engineering; CGPA: 8.62/10

Delhi Public School, Pune — 2021
Class XII (CBSE); 91.4%

Delhi Public School, Pune — 2019
Class X (CBSE); 94.2%

Projects

CampusCart | React, Node.js, MongoDB — github.com/aaravmehta-dev/campuscart

- Built a marketplace for students to buy and sell used textbooks within the campus.
- Implemented chat and listing search used by 400+ students in the first semester.

LeafLens | Python, TensorFlow, OpenCV — github.com/aaravmehta-dev/leaflens

- Trained a convolutional network that classifies 12 tomato leaf diseases.
- Achieved 94% validation accuracy on a 9,000-image dataset.

Expense Splitter CLI | Go

- Command-line tool that settles shared expenses with the minimum number of transfers.

Technical Skills

Languages: Python, Java, C++, JavaScript, Go
Web: React, Node.js, Express, HTML, CSS
Data and ML: TensorFlow, Pandas, NumPy, OpenCV
Tools: Git, Docker, Postman, Linux

Certifications

- AWS Certified Cloud Practitioner — Amazon Web Services, Mar 2024
- Deep Learning Specialization — DeepLearning.AI, Nov 2023
- Data Structures and Algorithms — NPTEL, Apr 2023

Achievements

- Finalist, Smart India Hackathon 2023
- Dean's List for academic excellence (2023)

Languages

English, Hindi, Marathi
